

2024 ANNUAL REPORT

ABOUT EXPANSION INTERNATIONAL

Expansion International is a non-profit organization that aims to empower individuals and break the cycle of generational poverty in Kenya. Our goal is to provide access to education, healthcare, and economic development to people in need. Since 2008, we have been able to accomplish this goal with the support of a committed donor base consisting of passionate individuals, churches, businesses, and trusts. During each program or event, we share the love of God with the community, and many people invite Jesus into their hearts. Over the last 16 years, we are pleased to witness real, measurable, and profound transformation within each community we work alongside.

46,091 TOTAL LIVES LIFTED

Our faith in God and the desire to see lives transformed by the love of Jesus is the motivation for all we do. In 2024 alone, more than 6,500 people heard the gospel, and 209 Bibles were distributed to new converts.

HEALTH

In April 2024, severe flooding in Kenya disrupted rural communities, damaging crops and halting education. Relief efforts, supported by Expansion's friends, helped restore normalcy by mid-year with seed and food distribution.

Two interns, graduates of our education program, gained work experience at our Kenya office.

Leadership training was conducted by the Kenya team and guest lecturers across all partner communities.

Despite drought conditions, 65 farmers in Kasten improved their harvests through a Farming Program focused on conservation and climate-smart practices for arid regions.

EDUCATION

Sponsorship was provided to 182 high school students, 10 first-year university students, and 17 trade school attendees.

TUYEP held two cohorts, where 40 students graduated from the program.

The annual student leadership conference was held for all sponsored students.

Parent seminars engaged 278 parents across all partner communities.

The Sports Evangelism President's Cup competition hosted 760 participants.

Construction of the Ndumberi Children's Community Center is ongoing, with completion expected in 2025.

ECONOMIC

In early 2024, a water filtration system was completed in Bahati, providing clean water to 65 households.

Training on the importance of using pit latrines, handwashing, and filtered water was given to 84 Kasten community members.

Five medical outreaches served over 23,000 patients at monthly mobile clinics and services were improved at Mercy Medical Clinic, Nyamamithi Dispensary, and other local dispensaries through our partnerships.

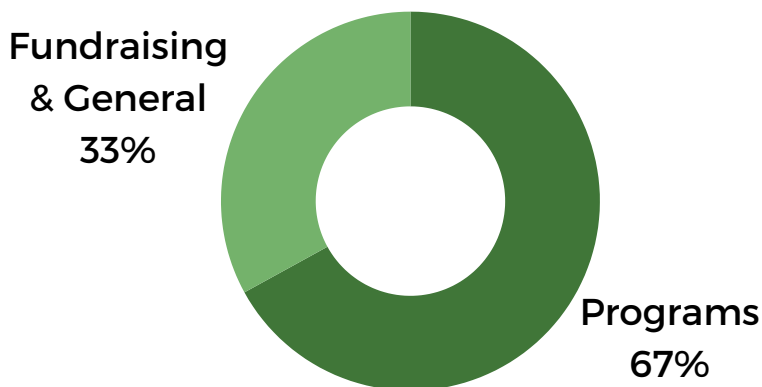

Two mission trips involved 31 US team members and 115 Kenyan volunteers, serving 2,589 patients medically and 4,817 children across four communities.
