

# EXPANSION INTERNATIONAL

**2021 ANNUAL REPORT**

TRANSFORMING LIVES  
*Since* **2008**

# 2021 AT A GLANCE

Expansion International continues to lift people to opportunity through the love of Jesus. Our donors and volunteers are some of the most compassionate people in the world. They understand the horrible effects of poverty and have chosen to do something about it. Even during another year of great uncertainty in the U.S., the Expansion International community provided countless opportunities for people in Kenya by giving to our education, healthcare, and economic programs. We are so grateful to each and every partner of this organization. Together, we are seeing lives transformed by the love of Jesus Christ.

*"People ask what makes our clinics any different from the government clinics down the road? God makes the difference! Our clinic in Ndumberi has done so well that we've had excess to give to the county hospital down the road. The best stuff they have is what we have donated to them."*

*- Pastor Kimemia, EIA Board*

*"When we were living in Kieni, I was praying to God for a home with three rooms and a kitchen. Today as we have this conversation, I am sitting in my home with three rooms and a kitchen. I know God answers prayers."*

*- Monica, Resident in Bahati*

*"I thank God I found this clinic. My son was misdiagnosed and given improper medications from a county hospital. He was out of school for weeks. I brought my son to the Mercy Medical Clinic and they were able to identify the real problem. They got him on the proper treatment and his health improved in just two days. He is now back in school!"*

*- Rebekah, Beneficiary of Magumu*
